

WEEKLY UPDATE

02/12/2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 62 residents and 27 staff members test positive for COVID-19. 50 residents and 27 staff members have since recovered.

In an effort to keep our residents and staff safe and facility free of COVID we screen every employee and essential care provider upon entering the facility and we are still testing our staff twice a week and residents every three days. The last positive case of COVID-19 we had in the facility was on 1/25/2021. All recent COVID positive residents were transferred to a COVID designated facility where they will quarantine and will return back to the facility once their quarantine period is over.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 214-845-6200.

Sincerely,

Chudy Uchegbu, LNFA, MBA, LSS
